PROFILE SUMMARY

Software Quality Assurance (SQA) Engineer with 2+ years of hands-on experience in manual and API testing of web and mobile applications. Currently working as a SQA Engineer at [Elevatech Solutions](#), with previous experience as a QA Intern at [Bits Collision](#). Skilled in test case design, test execution, defect reporting, API validation using Postman, and cross-browser testing using BrowserStack. Familiar with SDLC/STLC and performance testing basics with JMeter. Currently expanding automation testing expertise using Playwright, Cypress while focusing on delivering reliable, high-quality software solutions.

WORK EXPERIENCE

Elevatech Solutions – Karachi, Pakistan

April 2026 – Present

SQA ENGINEER

- Conducted manual testing of web and mobile applications, including functional, exploratory, and UI testing.
- Evaluated the Afric website and XRP Enterprise platform (Admin, Buyer, Seller panels), identifying frontend, backend, and functional issues.
- Documented frontend, backend, and functional defects in Jira and collaborated with developers to verify reported issues.

Bits Collision – Karachi, Pakistan

Nov 2025 – March 2026

QA INTERN

- Executed manual testing for web applications and identified functional defects across multiple modules
- Designed and executed detailed test cases and test scenarios for different project requirements
- Created structured and reproducible bug reports to assist developers in reproducing and fixing issues
- Conducted manual API testing using Postman by verifying endpoints, request/response data, and HTTP status codes.

Karachi Shipyard & Engineering Works (KSEW) – Karachi, Pakistan

July 2025 – August 2025

IFS ERP TRAINEE – INTERN

- Assisted in database queries for system validation and data verification tasks
- Worked on enterprise ERP system operations and learned IT workflows in a corporate environment
- Gained experience in professional documentation and structured reporting practices

SKILLS

Testing Skills:

Manual Testing , Functional Testing, UI Testing, Exploratory Testing, API Testing, Performance Testing, Automation Testing, Cross-Browser Testing, Test Case Design, Test Execution, Bug Reporting, SDLC/STLC, Agile

Automation & Testing Tools:

Playwright, Cypress, Postman, BrowserStack, JMeter, Jira, Slack

Programming & Database:

JavaScript, Java, TypeScript, HTML, CSS, C#, MySQL

Tools & IDEs:

VS Code, Visual Studio, MySQL Workbench, Microsoft SQL Server, Eclipse IDE

Soft Skills:

Team Collaboration, Adaptability & Quick Learning, Effective Communication, Problem-Solving Skills

EDUCATION

Bahria University

Undergraduate Software Engineer (3.3 CGPA)

Bahria College

Pre-Engineering (80%)

Matriculation (94.5%)

Karachi Campus

June 2027

Karsaz NORE-4

(2021-2023)

(2019-2021)

PROJECTS

Afric Website – Manual Testing:

- Performed manual testing to validate UI components, frontend functionality, and user flows.
- Identified UI and functional issues and prepared detailed bug reports for tracking and resolution.

XRP Enterprise Platform – Manual Testing:

- Tested web and mobile applications with Admin, Buyer, and Seller panels by validating workflows and core functionalities.
- Performed exploratory, UI, frontend, backend testing and documented identified defects.

Thaleen Website – Manual Testing:

- Designed and executed test cases to validate UI components, core functionalities and user flows
- Identified UI and functional defects and reported them with proper bug documentation

InstaKin Website – API Testing:

- Performed API testing using Postman by validating endpoints, request/response data, and status codes
- Verified API responses under different scenarios to ensure data accuracy and system reliability

Lead Management Application – Manual Testing:

- Tested core features by executing structured test cases for functional validation
- Reported and documented bugs and verified fixes to ensure system reliability

1EO Website – Manual Testing:

- Conducted usability and functional testing to evaluate system behavior and user experience
- Reported defects with proper documentation and performed retesting after fixes

COURSES AND CERTIFICATIONS

Software Manual Testing | API Testing with Postman | Introduction to JMeter
QA Fundamentals (10Pearls University) | Introduction to Software Testing (Simplilearn)
Playwright Automation Testing
